Test plan

●Introduction

Need to test quallity2.herokuapp.com application. The purpose of this document is to provide quality products. We haven't requirement, no we have application.

●Scope of Testing:

1.Features to be tested

.UI functionality

.Registration functionality

.Login functionality

.Courses adding functionality

.Mobile testing

.Performance testing

2.Features not to be tested

.Don't tested courses edit/delete functionality

●Testing Approach

Use system testing level: functional (manual) and non functional (performance ,load, stress,(automation)). Apply from testing types: stating testing (UI review) and dynamic testing (decision table testing and state transition testing).

●Item pass/fail criteria

There should be 95% test cases, of which 95% should be pass, 5% fail.

●Test deliverables

Document	Submission time
Test cases	Register's, login's, add course's test cases will be submitted during the design phase.
Bug Report	Bud report will be submitted at the end of each day throughout the test execution cycle.

Test Summary Report	Report will be submitted at the end of testing.

●**Responsibilities**

Name	Roles	Responsibility
Nelly	QA lead	Test Plan,Summary Report
Anush	Manual QA juniors1	UI functionality,Add Course functionality
Anna	Manual QA juniors3	Registration, Login testing
Aram	Manual QA middle2	Mobile testing
Ani	Automation QA middle2	Performans testing

●**Resource Planning**

1.*System Resource*

Tested on the windows and mobile environment.

2.*Staffing and training needs-no need*

●**Schedule**

40 hours, 5 day. Entry criteria: 1/06/2021, exit criteria:5/06/2021.

●**Risks and Contingencies**

Is a risky database that I do not have a access.
